

# Bad Behavior vs. Misunderstood Behavior

## Top Ten Takeaways

- 1 If you have a good boyfriend, you can be sure of one thing: he wants to make you happy.
- 2 Say yes and let things go 95% of the time, so that the 5% of the time you do say something, it has great impact and he pays attention.
- 3 Men are clamoring for women who accept them as they are, and have healthy, reasonable boundaries
- 4 One incidence? Forgivable. An entire pattern of not being able to communicate? Not forgivable.
- 5 Men reveal themselves in their actions.
- 6 You can't be treated in any way that you don't allow yourself to be treated.
- 7 Having a backbone does not equate to being a bitch. Being warm and accommodating does not equate to being a doormat.
- 8 Nothing is a big deal when it's in moderation, and anything can be a big deal when it's left unchecked.
- 9 Women expect that men are going to be 5% assholes. Men expect women to be 5% crazy. As long as each of you recognizes it, owns it, and apologizes for it, it's generally not a problem.
- 10 If the most important person in the world is not making you feel good, there is no reason for you to stay.
